Megan Rinehart of Gypsy Rose Pomsies

Phone: 507-272-2433

Email: Gypsyrosepomsies@gmail.com

AND

_____ who resides at _____

Phone: _____ Email: _____

LITTER: __Kanook & Zenya / F2 Pomsy Puppy__

Description:

Male

Female

The buyer has placed a \$500.00 Holding Fee on the puppy of their choice. The puppy shall remain with Megan Rinehart "Breeder" until the puppy is at least 8 weeks of age.

THE BREEDER:

- 1) Will provide pre- registration for the puppy from the IPA.
- 2) Will provide a certificate from the Pomsies Owners Association (POA)
- 3) This puppy will receive its first vaccinations, be dewormed as well as Vet checked and ready to go home on stated date on web page. Unless other arrangements are made then after this date a \$10.00 per day kenneling fee will be charged for the first 14 days, after the 15th day, if no arrangements are made the puppy will be placed for sale and buyer will lose deposit as well as any and all monies paid. The deposit is nonrefundable and there are no returns on any monies paid if the purchaser changes their mind. I the breeder will provide a medical record with the puppy's vaccination and deworming record. Upon arrival, we recommend that Buyer schedule a visit for the puppy with his/her own veterinarian for regular checkups and to determine a vaccination and deworming schedule.
- 4) Gypsy Rose Pomsies guarantees this Pomsy to be of sound health and temperament at the time of this sale. The breeder guarantees the puppy to be free of any hereditary defects to the best of her knowledge that are fatal/life threatening until 1 year old. Parent DNA will always be able to be provided upon request. *At times we will DNA puppies to ensure that we are producing healthy and

Buyers initials _____

happy offspring that are going to only benefit the Pomskey breed as a whole. Do not hesitate to ask and see if your puppy's DNA has already been done for you ☺.

- 5) A health record of first shots and deworming will be provided by Gypsy Rose Pomskeys. The Buyer agrees to take this dog to a licensed veterinarian of their choice within the first 24 hours for a physical examination. ****Due to this litter new home date landing on a holiday we are allowing 72 hours, but we are asking that you already have a vet that will accept you if you do not currently have an established vet. **** If the puppy was shipped it may experience loose bowels and vomiting due to stress. Any and all tests performed will be at the owner's expense. Should your puppy be determined to have a life-threatening illness within the 24 hour ****72 hour** window or a genetic defect, the owner must notify breeder within 24 hours by both email and phone. The veterinarian's information and all records must be provided to the breeder. If the puppy dies, an autopsy must be performed to confirm reason of death. If it is found to be the breeder's responsibility by our vet and yours then the puppy will be fully replaced or refunded the amount of the purchase of the puppy. At no time is Gypsy Rose Pomskeys liable for any tests or vet bills incurred by you at any time.
- 6) The breeder cannot ever guarantee the exact coloring, markings, sizes or breeding ability of any pup because Pomskeys are like unicorns and their coat will continue to change into adulthood.

THE BUYER:

- 1) The Buyer agrees to provide a life-long commitment, comfortable environment, prompt medical attention, proper grooming and responsible care. This includes keeping this puppy/dog parasite free and up to date with inoculations, proper nutrition, which consists of a good quality feed given at regular intervals, and fresh water available at all times. The Buyer promises to provide a safe environment for the dog, and never allow the dog to roam freely without proper fencing or supervision. The seller strongly recommends that the puppy/dog be micro-chipped in order to facilitate his return if lost or stolen.
- 2) The Buyer agree not to use this animal for breeding and agree to have it spayed/neutered at the age recommended by their veterinarian (usually 6 months to 1 year of age).

_____ This Pomskey puppy is being sold as a Pet and must be spayed/neutered. I agree to have the puppy altered no later than 1 year by a licensed veterinarian of my choosing. **The adopter/buyer agrees to assume full responsibility and compliance with this agreement.** A person who violates this is subject to civil penalty. I acknowledge that I am responsible for all costs associated with the spay/neuter of my puppy and that Gypsy Rose Pomskeys bears no obligation for these costs.

- 3) Parasites are common in puppies, and we make every effort to keep puppy's parasite free with a regular deworming schedule. We cannot guarantee that no parasites exist, and puppies can easily infect themselves. As puppies grow to maturity, heartworms can become a problem as well. **Please discuss a flea/tick/heartworm preventative care with your vet.**
- 4) When your puppy arrives, he/she will have had its first puppy vaccination which will be noted on the medical record. Our vet does Duramune® Max 5 with Leptospira bacterial extract. These vaccinations are given at approximately 6.5 weeks old. Leptospirosis (aka "Lepto") is a bacterial infection that can be transmitted to humans. Duramune® Max 5 protects against diseases caused by Canine Distemper, Adenovirus Type 1 (Hepatitis), Adenovirus Type 2 (respiratory disease), Parainfluenza, and Parvovirus. Parvo is a highly contagious virus. The first vaccination will

Buyers initials _____

begin to protect your puppy against parvo virus. However, until your puppy has had its last puppy shot at approximately 16 weeks of age, your puppy is at risk for the parvo virus. Therefore, **we recommend that the puppy have limited exposure to public areas until that time.** We ask that you give the remaining puppy shots approximately every 3 to 4 weeks until 16 weeks of age or in accordance with your veterinarian's recommendations.

- 5) Transportation expenses are the responsibility of the Buyer. Remember the first week will be a transition. The puppy will be excited and nervous and this in combination with food and water changes can cause loose stools for a couple of days but we always recommend consulting with your vet and always having a stool sample taken at the 24 hour checkup if this is suggested in your vet's practice. Deworming's should always be continued with vaccinations until the puppy has completed their vaccinations. Please consult with your vet for their vaccination practice and schedule.
- 6) **** If at any time the Buyer can no longer retain possession of this dog, the Seller is to be notified and given first option of resuming full ownership of dog in order for the Seller to locate this dog a new home. Refunds, if any, will be at the discretion of the Breeder/Seller. The dog will be returned with IPA registration/POA Certification and medical records. Should any circumstances arise that affect the quality of life of the dog, the Breeder/Seller is to be informed so that they may participate in determining the future of the dog.**
- 7) ****The Breeder/Seller reserves the right to approve/prohibit any transfer of this animal to a third party. Under no circumstances will this dog be sold, leased, traded or given away to any pet shop, research laboratory, animal shelter or similar facility.**
